Good morning Kimi-

Thank you for the opportunity to work on the litigation with you. I learned a lot and it was a really neat experience!

I would very much like to work on the hydraulic fracturing issue. I have a few things today I'll be working on, but if the issue isn't immediately due today, I would love to assist.

Please let me know when might be a good time to further discuss.

Thank you!

Mai

Hi Mai –

Thank you for all of your help with the litigation!

Just wanted to check in on your availability. If you have the time and interest, we have a hydraulic fracturing-related issue coming up and it would be great to work with you on this. If not, no worries, just wanted to check –

Thanks, Kimi

Privileged/Deliberative

Hello –

Ayn confirmed that it is the Wyoming Pavillion Domestic Water Well Draft Report that will be out soon (the third in the list below). As we have done with the first 2 Reports, Region 8 will prepare EPA comments. We talked a bit about what the data may show and she will let me know when it comes to us. I'll keep you posted as well.

Thanks, Kimi

## Ex. 5 - Deliberative Process

Also, I recall that Deb talked with Todd Parfitt about the forthcoming report before Thanksgiving; you may want to check in with her if you can catch her, to get further background. If I had further details I'd share them of course, but I don't have any other information.
